Capital Asset Statistics by Function (Schedule 33) .....	105

## **INTRODUCTORY SECTION**

### **Letter of Transmittal**

September 8, 2014

Board of Commissioners  
Champaign Park District

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the Champaign Park District for the fiscal year ended April 30, 2014. The State of Illinois requires each local government to issue an annual report on its financial position prepared in accordance with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants.

This report is based on management's goal to present a complete financial picture of the operations and financial position of the Champaign Park District. Consequently, management accepts full responsibility for the fairness, accuracy and completeness of all of the information presented in this report. To provide a reasonable basis for making these representations, the management of the District has established and maintained a comprehensive internal control framework that is designed to protect the District's assets from loss, theft or misuse, to assure transactions are properly executed and recorded with management's authorization and to compile sufficient information for the District's financial statements. The District's system of internal control is supported by written policies and procedures and periodically reviewed, evaluated and modified to meet current needs.

Internal accounting controls are designed to provide reasonable, but not absolute, assurance that the financial statements will be free from material misstatement. The concept of reasonable assurance recognizes that the cost of internal controls should not exceed the benefits likely to be derived from the controls. It is management's belief that the District's system of internal controls adequately safeguards assets, provides a reasonable assurance of proper recording of transactions and that these financial statements are complete and reliable in all material respects.

The District's financial statements have been audited by the firm of Martin, Hood, Friese and Associates, LLC licensed certified public accountants. The independent audit estimates made by management, and evaluating the overall financial statement presentation. Based upon the audit,

Joseph C. DeLuce, *Executive Director*

the independent auditor concluded that there was a reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended April 30, 2013 are fairly presented in conformity with GAAP. The independent auditor's report is presented in the financial section of this report.

provides reasonable assurance that the financial statements of the District for the fiscal year ended April 30, 2014 are free of material misstatement. The audit involved examining selected records to support amounts and disclosures in the financial statements, assessing the accounting principles applied and significant estimates made by management, and evaluating the overall financial statement presentation. Based upon the audit, the independent auditor concluded that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended April 30, 2014 are fairly presented in conformity with GAAP. The independent auditor's report is presented in the financial section of this report beginning on page 9.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditor.

### **Profile of the Champaign Park District**

The Champaign Park District was organized in November 1911. The Park District was established as a separate unit of local government in 1955 by a public referendum. The District is a municipal corporation under the Statutes of the State of Illinois. The District operates under a Board-Executive Director form of government. The five member Board of Commissioners is elected to six year, uncompensated, terms in biennial elections. The Executive Director and the department heads who serve under his supervision are responsible for carrying out the policies, procedures and ordinances of the District.

The District's boundaries are nearly coterminous with the City of Champaign and cover over 20 square miles. The 2010 special census lists the City's population as 81,055. The District is composed of over 62 parks, trails and facilities covering nearly 689 acres. The District's strategic plan identified the District's vision to consistently exceed community expectations. The mission of the District is to enhance our community's quality of life through positive experiences in parks, recreation, and cultural arts.

In 1999, the District received the Illinois Association of Park Districts and the Illinois Park and Recreation's Distinguished Park and Agency award. To earn this distinction, a park district is evaluated in six separate categories which range from mandatory and legal requirements to desired standards for park districts that the two associations have set. In 2011 the District was re-evaluated and maintained this distinguished distinction. Only 38 other park districts from over 350 agencies in the state of Illinois have obtained the distinguished designation.

## **Financial Planning**

The annual budget serves as the foundation for the District's financial planning and control. In May, a proposed budget is submitted by staff to the Board of Commissioners for review and approval. The budget includes proposed expenditures and the means for financing them for the fiscal year beginning May 1. Before the budget can be officially approved, state law requires a public hearing on the proposed budget. By state law, the budget must be officially approved by the Board of Commissioners by the end of the first quarter of the new fiscal year.

The appropriated budget is prepared by fund, department, program activity and by line item classification. Budgetary control is employed as a management control device during the year through an internal reporting process. The process includes verification of appropriation amounts prior to expenditures and a monthly review of all account totals compared with appropriations. Contracts greater than or equal to \$20,000 must have the Board of Commissioner's approval. The Board reviews monthly, all expenditures and financial statements and is updated on line item accounts which may go over appropriated amounts and need a transfer.

Transfers are generally within the same fund and are simply movement from one line item account that is under budget to another line item account that will exceed its appropriated amount. Transfers between lines within the same fund may be made throughout the year without Board approval and are then approved by the Board near the end of the fiscal year. Transfers between line items between different funds are approved as part of the monthly Treasurer's Report and Detailed Bill Listing which is approved by the Board.

A new Budget and Appropriation Ordinance is required if the total appropriation for a fund is exceeded. The Board of Commissioners may amend the Budget and Appropriation Ordinance, but it must be done in accordance with the same procedures followed in adopting the original ordinance.

## **Local Economy**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

The Champaign Park District is located in east-central Illinois, one of the most stable economic environments, with one of the lowest unemployment rates, in the state. A major reason for this stability is that the University of Illinois is located in Champaign and its neighbor City of Urbana. The University provides over 10,500 jobs to the community. The large number of University employees residing in the District contributes greatly to the District's program and property tax revenues. Also, the District's commercial base is rather diverse which tends to minimize the overall effects of economic swings. The commercial base of the District is mainly divided between healthcare, retail, food, service, real estate and high technology industries.

In recent years the District's boundaries have expanded by both residential growth and retail and commercial growth. The residential growth has mainly expanded the boundaries to the west with some new growth planned to the north and west. The retail and commercial growth has been mainly north with expansion also taking place in downtown Champaign. During recent years, the District completed the largest annexation in its history, annexing in over 600 acres.

Much of this new annexation contains single family housing increased the District's assessed valuation by over 15% in 2005. Due to the economic conditions, the assessed valuation has declined approximately 2.7% over the last 5 years. For 2014, the assessed value decreased 1.67%, the largest increase in the last 5 years.

In general, an increase in the assessed valuation helps offset the property tax cap limits imposed by the Property Tax Extension Limitation Law. This law limits the increase in the District's annual property tax levy to the lesser of 5% or the increase in the national Consumer Price Index plus any new or improved property in the District. For the fiscal year 2013/2014 the increase in the Index was set at 1.6%. Property Taxes account for nearly 79% of the District's operating revenues. If tax caps were not in place, and if the District taxed at their maximum allowable rate, then the District could have received nearly \$249,900 more in property tax revenue overall. The District does not receive any state or local income tax revenue, though it does receive a share of Personal Property Replacement Tax, which is collected and distributed by the State of Illinois Department of Revenue.

### **Major Initiatives**

The District's capital improvement program is reviewed and revised annually. The Board of Commissioners and the staff update the five year plan in the second half of the prior year. During the annual budget process, staff review and reprioritize the capital program in order to best meet the District's maintenance, development and land acquisition goals as they fit in the current year's budget.

The District continues to issue general obligation bonds to help finance various capital and major repair projects. The District issued \$1,068,000 of bonds in November, 2013. The District also refunded the outstanding 2005 Alternate Revenue General Obligation Bonds which financed the construction of the Sholem Aquatic Center. The District has completed or is in the process of completing the following projects.

Sunset Ridge Park (formerly known as Boulder Ridge Park) – This project was completed and grant billing finalized during fiscal year 2014. The grant reimbursement of approximately \$379,000 was received in fiscal year 2015.

Virginia Theatre - The completion of the Virginia Theatre renovations continued as a focus of the District's capital plan in Fiscal Year 2014. The District completed the \$5 million project from the prior year, as well as updated the projection room, and added a new digital projector. The District received notification in fiscal year 2015 of a \$750,000 grant to assist with updating the sound and lighting and is scheduled to be completed in December 2015.

Leonhard Recreation Center – Due in part to the receipt of a \$2.5 million PARC grant in Fiscal Year 2012, the District worked and completed the \$5.9 million dollar recreation center at the end of fiscal year 2014. The facility held its grand opening to the public in May 2014.

Douglass Park Development – The District received a \$300,000 grant to assist with the redevelopment of Douglass Park. As such, the fiscal year 2015 capital budget includes \$1,000,000 for the completion of this project. Some of the amenities include additional pathways, spray ground feature, playground equipment and poured in place surfacing, exercise nodes throughout the new paths, as well as shade structures and lighting.

Sholem Aquatic Center – Installation of a new water play feature was completed before the start of the 2014 pool season.

### **Debt Administration**

The District can issue debt to provide financing, and pay the costs associated with, the acquisition, and improvement of long-term assets and/or to make the annual debt payment on the alternative revenue bonds. It is not used to finance the District's regular operating expenditures. The District's primary objectives in debt management are to keep the level of indebtedness within available resources and within the total debt and payment limits established by state statutes and tax cap legislation.

The legal debt limit for the District is 2.875% (\$43,231,920) of the assessed valuation for total debt issued and .575% (\$8,646,384) for non-referendum general obligation bonds. The District is well within these established limits. Currently, the District has \$1,068,000 of non-referendum general obligation debt maturing in November 2014 and \$4,970,000 of alternate revenue bonds.

In Fiscal Year 2014, Moody's Investor's Services, Inc. gave the District an Aa3 rating citing the District's healthy regional economy and tax base, sound financial operations supported by growing reserves and manageable debt as the main reasons for the high rating.

### **Impact of Financial Policies on Financial Statements**

Many governmental entities are facing financial hardship, with increased costs outpacing revenue growth. Increases in employee compensation are soaring because of the increases in health insurance costs. The investment performance last year for the pension plans was very positive, and the District saw a decrease in the annual contribution rate for 2014 from 11.12% to 10.56%. Fortunately, the Park District updated its fund balance policy in Fall 2010 to maintain a 120-day reserve balance in the main funds. These reserve levels are monitored to ensure that they are maintained, and the District has not fallen below these levels since the policy was updated.

The District invests cash that is temporarily idle in the Illinois Funds Investment Pool, the Illinois Park District Liquid Asset Fund, the Illinois Municipal Investment Fund, and certificate of deposits and money market index funds at local institutions. The District has adopted, and follows, an investment policy based on the standards recommended by the Treasurer of the State of Illinois. Due to the slow recovery from the recession, protection of principle is of prime importance with all invested funds. Additional information on the District's cash management policies and details of the District's investments can be found on Notes 1d, 1e, and 5 of the Notes to the Financial Statements.

The District is a member of the Park District Risk Management Agency (PDRMA) which was organized by state park districts in Illinois in accordance with the terms of an intergovernmental cooperative agreement. The purpose of PDRMA is to obtain insurance coverage as a single insurable unit for the member park districts for coverage in

excess of self-insurance units and to administer the payment of self-insurance claims. Currently, over 140 park districts throughout the State of Illinois belong to PDRMA. Additional information on the District's risk management activity can be found in Note 18 of the Notes to the Financial Statements.

The District participates in the Illinois Municipal Retirement Fund which is a multiple-employer public employee retirement system that acts as a common investment and administrative agent for local governments in Illinois. All employees who meet certain minimum hourly standards must participate by contributing 4.5% of their annual salary which is set by state statute. The District contributes the remaining amounts necessary to fund the system, using the actuarial basis specified by the statute. The District contributed 11.12% of salaries of covered employees during calendar year 2013 and 10.56% in 2014. Additional information on the District's pension arrangement and activity can be found in Note 17 of the Notes to the Financial Statements.

### **Awards and Acknowledgments**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the Champaign Park District for its comprehensive annual financial report for the fiscal year ended April 30, 2013. This was the eighteenth consecutive year that the District has received this award. In order to be awarded a Certificate of Achievement, the District must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to conform to the Certificate of Achievement program requirements, and we are submitting it to the GFOA to determine the eligibility for another certificate.

The preparation of this report has been made possible due to contributions from many individuals of the Administration and Finance Department. We would like to express our appreciation to everyone who assisted and contributed to the report. Credit must also be given to the Board of Commissioners for their support in maintaining the highest standards of professionalism in the management of the District's finances.

Respectfully submitted,

Andrea N. Wallace, CPA  
Director of Finance

## INDEPENDENT AUDITOR'S REPORT

Board of Commissioners  
Champaign Park District  
Champaign, Illinois

We have audited the accompanying financial statements of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Champaign Park District (the District), as of and for the year ended April 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the Champaign Park District as of April 30, 2014, and the respective changes in financial position and the respective budgetary comparison for the General Fund and Major Special Revenue Funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedule of funding progress on pages 12 through 22 and page 71, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Champaign Park District's basic financial statements. The introductory section, combining and individual major and non-major fund financial statements, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual major and non-major fund financial statements (Schedules 1 through 15) are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information

directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual major and non-major fund financial statements are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

**Champaign Park District  
Management's Discussion and Analysis  
April 30, 2014**

---

Management's Discussion and Analysis provides an overview of the Champaign Park District's financial activities for the fiscal year ended April 30, 2014. Please read it in conjunction with the transmittal letter and the District's financial statements which begin on page 23.

**Financial Highlights**

- The assets of the Champaign Park District exceeded its liabilities at the close of the most recent fiscal year by \$52,116,454 (net position).
- As of the close of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$14,378,282. Not including an amount for Non-spendable, the actual amount of Fund Balance totals \$14,107,805.
- Revenues totaled \$16,324,806 for the District's governmental funds. Total expenditures were over this total by \$1,636,018.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$6,471,136, or 126.5% of total General Fund expenditures.
- The District's total long term debt increased by \$57,517 during the current fiscal year. In July 2013, the District refunded the 2005 alternate revenue bonds, thus resulting in an overall long-term savings on interest. This net increase for the current fiscal year is a result of the unamortized bond premiums as further explained in footnote 11 on page 52.

**Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the Champaign Park District's basic financial statements. The Champaign Park District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

**Government-Wide Financial Statements.** The *government-wide financial statements* are designed to provide readers with a broad overview of the Champaign Park District's finances, in a manner similar to a private-sector business.

The government-wide financial statements of the District include not only the Champaign Park District itself (known as the primary government), but also a legally separate nonprofit organization, the Champaign Parks Foundation, which is exclusively dedicated to supporting the District. The financial information for this component unit is reported separately from the financial information presented in the primary government.

- The *statement of net position* presents information on all of the Champaign Park District's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Champaign Park District is improving or deteriorating.
- The *statement of net position* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Starting in fiscal year 2008, the activities of the Champaign Parks Foundation are included in the audit, which is reflected in the *Component Unit* reference in the financial statements. The governmental activities of the Champaign Park District include general government, recreational and cultural opportunities and land and park development.

The government-wide financial statements can be found on pages 23 through 25 of this report.

**Fund Financial Statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Champaign Park District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Champaign Park District can be divided into two categories: governmental funds and fiduciary funds.

**Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Champaign Park District maintains sixteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Recreation Fund, Museum Fund, Special Recreation Fund, and the Bond Proceeds Fund, all of which are considered to be major funds.

The Champaign Park District adopts an annual appropriated budget for all of its funds. A budgetary comparison statement has been provided for the funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 26, 28 and 30 through 33 of this report.

**Proprietary Funds.** The Champaign Park District maintains no proprietary funds (also called Enterprise Funds). Enterprise Funds are presented as *business-type activities* in the government-wide financial statements. In fiscal year 2006, there was an active proprietary fund regarding the tennis center operations, but in fiscal year 2007 and beyond, the tennis center operations were included in the Recreation Fund and there is no longer a proprietary fund.

**Fiduciary Funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are *not* available to support the Champaign Park District's own programs. The Champaign Park District maintains one fiduciary fund. The Activity Fund is used to account for money held in trust for groups affiliated with but not controlled by the Park District. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statement can be found on page 34 of this report.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 35-70 of this report.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information*. The required supplementary information includes information concerning the Champaign Park District's progress in funding its obligation to provide pension benefits to its employees. The other supplementary schedules contain combined financial information and budget to actual comparisons for non-major funds, information about the legal debt margin calculations and assessed valuations, tax rates, taxes extended and collected information about the property tax funding system. Required supplementary and other supplementary information can be found on page 71 and pages 72-105 of this report.

### **Government-Wide Financial Analysis**

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Champaign Park District, assets exceeded liabilities by \$52,116,454 at the close of the most recent fiscal year.

The largest portion of the Champaign Park District's net position (68 percent) reflects its investment in capital assets (e.g., land, land improvements, buildings, machinery, and equipment); less any related debt used to acquire those assets that is still outstanding. The Champaign Park District uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Champaign Park District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The following table reflects the condensed Statement of Net Position.

**Champaign Park District's Net Position (in thousands)**

	Governmental Activities	
	2014	2013
Current and Other Assets	\$ 18,949.9	\$ 19,661.8
Capital Assets	41,247.8	35,313.3
Total Assets	<u>60,197.7</u>	<u>54,975.1</u>
Deferred Outflow of Resources	<u>223.4</u>	<u>-</u>
Long-Term Liabilities	5,345.4	5,287.9
Other Liabilities	2,959.3	3,054.4
Total Liabilities	<u>8,304.7</u>	<u>8,342.3</u>
Net Position		
Net Investment in		
Capital Assets	35,442.8	30,293.3
Restricted	2,771.0	3,332.7
Unrestricted	13,902.6	13,006.8
Total Net Position	<u>\$ 52,116.4</u>	<u>\$ 46,632.8</u>

The District implemented GASB Statement No. 65 as noted in footnote 1 on page 35. As a result of this change, combined with the refunding of the 2005 alternate revenue bonds in July 2013, the *Deferred Outflows of Resources* was created for the current fiscal year. Information related to the refunding of the bond series can be found in footnote 11 beginning on page 52.

The *unrestricted net position* (\$13,902,641) may be used to meet the government's ongoing obligations to citizens, creditors, as well as future planned capital projects. At the end of the current fiscal year, the District is able to report positive balances in all three categories of net position for its governmental activities.

Regarding the following Change in Net Position Table, the Net Position of the District increased \$5,483,632 in the fiscal year, mostly due to the funds invested in capital projects over the last 12 months, including the work at the Virginia Theatre, and most recently the completion of the new Leonhard Recreation Center which was completed in April 2014. The following table summarizes the revenues and expenses of the District's activities:

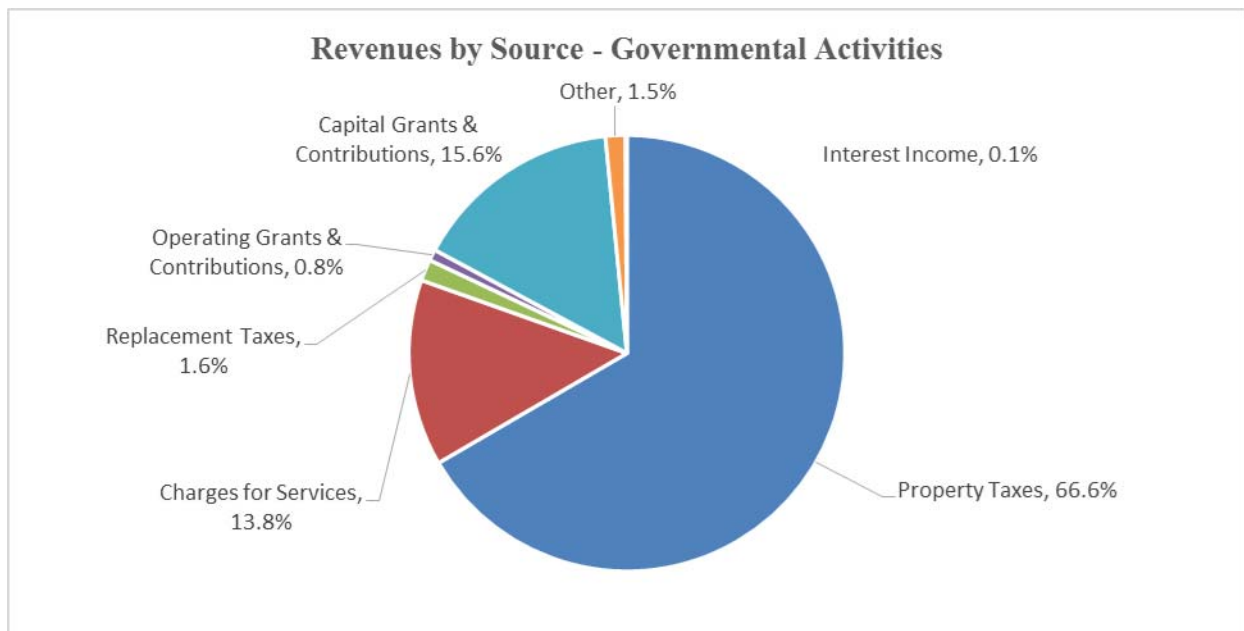

**Champaign Park District's Change in Net Position (in thousands)**

	Governmental Activities	
	2014	2013
Revenues:		
Program Revenues		
Charges for Services	\$ 2,393.7	\$ 2,297.0

Total Expenses	<u>11,829.6</u>	<u>10,134.1</u>
Change in Net Position	5,483.6	5,013.6
Beginning Net Position	46,632.8	41,619.2
Ending Net Position	<u>\$ 52,116.4</u>	<u>\$ 46,632.8</u>

**Revenues:**

Revenues for the District are generated from a number of different sources and for the most part are dependent on different financial factors. The majority of revenue is derived from property taxes, as illustrated in the chart below. Property Taxes, which account for 79% of the District's operating revenue, or 66.6% of overall fiscal year 2014 revenues and are a stable source of revenues, not dependent on economic trends and fluctuations. The District's charges for services come mainly from, but is not limited to, the District's recreation and cultural programs, including sports, cultural arts, membership fees and facility rentals, and the Virginia Theatre events.

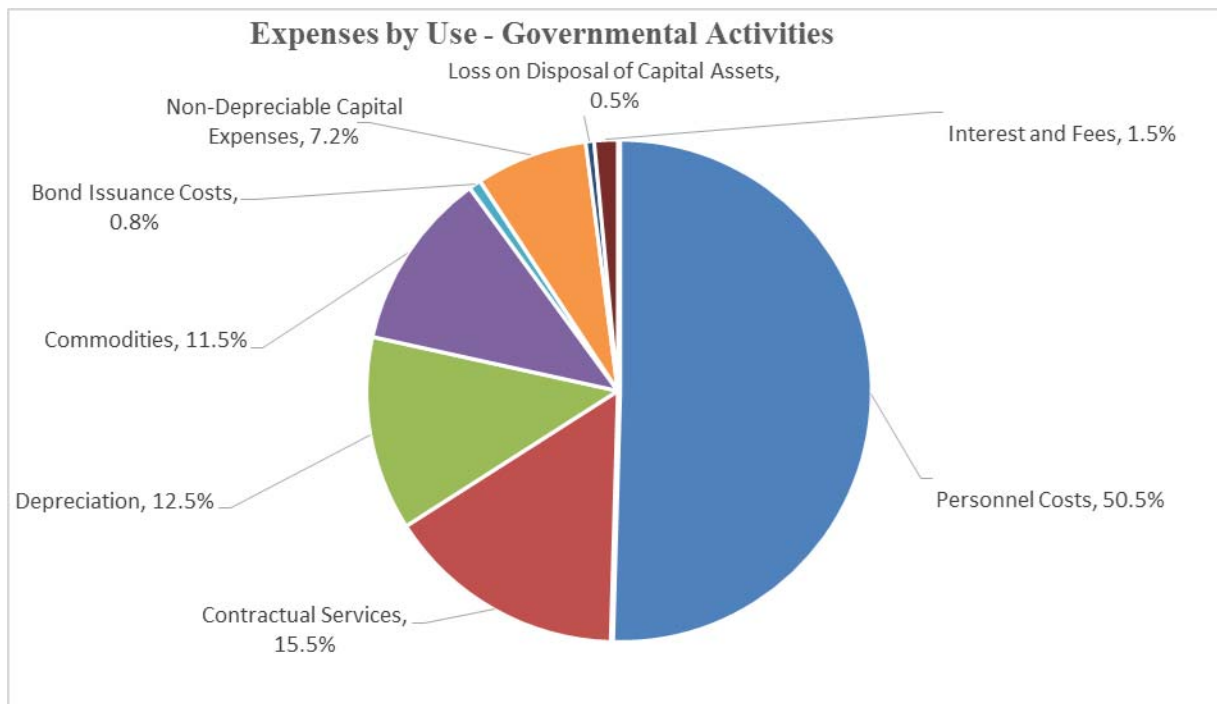

Overall, revenues were 14.3% (\$2,165,572) higher than the prior year. General revenues were 6.2% (\$700,387) higher due to an increase in the property tax revenues. The increase in property taxes for Revenue Year (RY) 14, payable in Fiscal Year (FY) 15, which are partially recognized in FY 14 on Exhibit B, increased partly due to the refunding of the 2005 bonds. The District previously filed the debt service abatement based on the original 2005 bond issue. Since these bonds were refunded for a savings, the excess abatement was added to the District's debt service revenues for RYs 14 and 15. The additional increase related to normal CPI increase of 1.5% as well as new construction and recovered enterprise zone assessed values coming back on the tax rolls for RY15, both of which are excluded from tax caps. Charges for services increased as the major construction project started in the prior year at the Virginia Theatre was completed and therefore the theatre was open for the majority of the fiscal year. Capital Grant revenue in FY 13 was \$1,383,000 and in FY 14 the amount reflected was \$2,695,833. The District received a \$2.5 million capital grant for the construction of the new Leonhard Recreation Center during the current fiscal year. This project was complete as of the end of the year, therefore the entire grant revenue was recognized in Exhibit B.

**Expenses:**

Total expenses for FY 14 increased 16.8% (\$1,695,546) over the prior year. While the District experienced a savings in interest on debt of 21% (\$47,972), personnel costs increased 8.2% (\$454,636) mostly due to normal annual merit increase and health insurance premium increases. Contractual services increased 32.5% (449,320) partially due to the Virginia Theatre being opened after construction for nearly the entire fiscal year, as well as increased professional fees related to ongoing as well as future planning and capital projects. The remaining increase relates to non-capital assets purchased to furnish the new recreation center that fell below the capitalization thresholds of the District, and therefore were expensed in the current year.

Personnel Costs (Salary, Wages and Fringe Benefits) historically account for approximately 50% of the District's total expenses, which is within the industry norm, and this year the percentage is at the high end (50.5%), which is down in comparison with the prior year. A breakdown by classification of expenses follows.

### Financial Analysis of the Government's Funds

As noted earlier, the Champaign Park District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of the Champaign Park District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the Champaign Park District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Champaign Park District's governmental funds reported combined ending fund balances of \$14,378,282. A portion of this amount, \$5,333,894, constitutes *unassigned fund balance*, which is available for spending at the government's discretion. Not including non-spendable amounts the actual amount of Fund Balance totals \$14,107,805. The total combined fund balance for the fiscal year ended April 30, 2014 is \$1.4 million less than the prior year due to using excess reserves for the construction costs for the new recreation center rather than issuing additional debt for the project, which is mostly reflected in the Recreation Fund.

- The General fund is the main operating fund of the Champaign Park District. At the end of the current fiscal year, total fund balance was \$6,473,440 and is mostly unassigned. The unassigned fund balance represents 126.5% of total General Fund expenditures (including both operating and capital expenditures), and is an increase over the prior year of \$328,136 due to actual expenditures coming in under the total estimated budget.

- The Recreation Fund's fund balance decreased \$1,710,784 to \$2,212,452 this year and represents 35% of the Recreation Fund total expenditures. Total revenues for the current fiscal year increased \$1,220,285 from the prior year and expenditures increased \$3,584,906 both attributable to the Leonhard Recreation project which received capital grant revenue during the year. The remaining increase in expenditures came from utilizing excess reserves from the beginning of the year to cover the capital project.
- Fund balance in the Museum Fund increased \$623,209, and represents 80.6% of Museum Fund expenditures. Charges for services increased approximately \$250,000 as a result of additional program revenues from the Virginia Theatre being open the majority of the year. Additionally, property taxes increased approximately \$135,000.
  - These three main funds have a total of over \$9.97 million dollars in fund balances, which is 69% of the District's total fund balance.
- Increased capital project expenditures of \$658,511 of the Special Recreation Fund for the Leonhard Recreation center and an Urbana capital project, coupled with the normal increases in salary and fringe benefit expenditures, and the slight decrease in property tax revenues for tax caps let to the overall change in fund balance for the current year. At the fiscal year end, Special Recreation Fund has a fund balance of \$2,106,229, which represents 160% of the Special Recreation expenditures.
- The last major fund, the Bond Proceeds Fund ended the fiscal year with a deficit fund balance of \$904,241, which will be eliminated by the transfer of funds from the Bond Amortization/Debt Service Fund as part of the repayment on the short-term general obligation bond debt, due November 30, 2014.

### **General Fund Budgetary Highlights**

The District staff develops a working budget prior to the beginning of each fiscal year. This working budget is based on District goals outlined in the most recent strategic plan, of what programs to fund, capital projects and purchases desired, program fee structures, estimates of State revenues and grants availability, historical operating expenditures and desired cash reserves and fund balance. The working budget is presented to the Board of Commissioners for approval. The District staff use this budget to guide operations throughout the fiscal year.

The legal spending limits of the Champaign Park District, as well as most municipal governments, are set by the appropriation budget. The appropriation budget is also developed by District staff taking into account the maximum acceptable spending for operations and other possible contingencies. The appropriation budget is passed via ordinance of the Board of Commissioners in accordance with State statutes. The Board may vote to transfer appropriated amounts between departments or line items as needed during the year. But there are very few remedies, as described in State statute, if the total appropriation amount needs to be raised or lowered.

During the fiscal year 2014 there was no change in overall appropriations amounts between the original and final appropriation budget. The only changes made to the original budget amounts were changes within individual departments within the same fund and did not result in an increase or decrease in total appropriations.

In the General Fund, the District spent \$1.6 million below the total \$6.7 million budgeted. Salaries and wages in the General Fund were \$256,482 under budget as a result of budgeting for part-time positions for the maximum time expected, as well as vacancies in full-time positions that occurred throughout the year. Commodities were \$134,266 under budget and contractual services were \$217,227 under budget due to conservative budgeting and spending practices. There were no major changes in department structure from the prior year related to the General Fund. Capital Expenditures ended up \$1,022,170 under budget which reflects spending 59.8% of the total capital budget. The majority of the \$1,519,830 spent in capital was for the new recreation center.

### Capital Asset and Debt Administration

**Capital Assets.** The Champaign Park District’s investment in capital assets for its governmental activities as of April 30, 2014 amounts to \$41,247,799 (net of accumulated depreciation). This investment in capital assets includes land, land improvements, playground equipment, buildings and systems, and machinery and equipment. The following Comparative Statement of Capital Assets, net of depreciation shows the change in assets for the governmental activities.

#### Comparative Statement of Capital Assets

	Governmental Activities	
	2014	2013
Land	\$ 7,840,578	\$ 7,840,578
Buildings & Improvements	32,076,513	26,634,974
Equipment	1,330,708	837,791
	<u>41,247,799</u>	<u>35,313,343</u>

Buildings and Improvements increased approximately \$6.6 million before depreciation due to the addition of a new recreation center, along with improvements to the Kaufman Lake road, and projects at the Virginia Theatre that were completed during the current fiscal year. Equipment also increased as playground features and equipment was purchased for not only the new recreation center, but some parks. Capital expenditures in 2015 are budgeted for over \$3.8 million, which is a decrease of over \$5.5 million from the amount budgeted for capital in FY 2014. The capital projects which are due to be completed in FY 2015 include the redevelopment of Douglass Park (\$1,000,000), along with multiple playground replacements and replacements of vehicles and equipment. Furthermore, the installation of lighting and sound at the Virginia Theatre (\$750,000) will be completed before December 2015, and the Kaufman Lake North Roadway project (\$200,000) was finalized in early FY 2015.

Additional information on the Champaign Park District’s capital assets can be found in Note 9 in the Notes to Financial Statements of this report.

**Long-Term Debt.** At the end of the current fiscal year, the Champaign Park District had long-term debt outstanding of \$5,345,406, including \$4,970,000 of alternate revenue debt with a 12 year payback schedule with the second payment on the 2013 Series, along with the final payment on the 2005 series, both due December 2014. In addition, the District has \$213,090 of compensated absences payable and unamortized bond premiums of \$102,918.

The Champaign Park District's total debt increased by \$57,515 (1.1%) during the current fiscal year, mainly due to the net effect of refunding the 2005 alternate revenue bonds. Additional information on the District's long-term debt can be found in Notes 10 and 11 in the Notes to Financial Statements of this report.

### **Economic Factors and Next Year's Budgets and Rates**

The equalized assessed value (EAV) of taxable property in the District for 2013 levy year was \$1,503,718,963 which represents one-third market value. Residential and commercial properties make up nearly 99% of the EAV for the 2013 levy year. The assessed value decreased 1.67% in this last year. With the exception of this year, in the past 5 years the District's assessed valuation has decreased at a rate of less than 1% per year.

Because of the decrease in the equalized assessed valuation, the tax rate has actually increased for the third year in a row. In a good economy, the assessed valuation increases each year which has helped to offset the property tax cap limits imposed by the Property Tax Extension Limitation Law. This law limits the increase in the District's annual property tax levy to the lesser of 5% or the increase in the national Consumer Price Index plus any new or improved property within the District boundaries. Property Taxes account for 79% of the District's operating revenues. The District does not receive any state or local sales tax revenues.

The focus for budget year 2014/2015 centers on the priorities contained in the District's strategic plan along with ensuring that with the current economic conditions, we are fiscally prudent in projecting revenue and that budgeted expenses are conservative. The intent of the budget is to maintain our current level of standard and service while taking a critical look at existing services in regard to trends, redundancy, efficiencies, and cost. Much of the budget focus will be on the continued improvements to the facilities and equipment of the District, as well as the planned redevelopment of Douglass Park and securing funding for the Spalding Park conceptual design. It should be noted that the targeted minimum reserve goals (120-day) have been reached in the operating funds, other than the Museum Fund.

The operating and capital budgets will be tight in the next few years, especially considering the current economic situation. Operating costs such as health benefits, fuel and utility costs and program supplies are projected to increase much more than the average rate of inflation, especially with the recent changes to health care reform. The District was fortunate in that the increase for fiscal year 2015 plan year was much less than the national average, however that may not be so for the next plan renewal. Additionally, the effect of the required minimum wage increase will be felt in the operating budgets. Based on preliminary calculations, it is estimated this change would result in an increase of approximately \$300,000, including payroll taxes. The capital program will be limited this coming year, as well as future years, as a portion of the bond proceeds that were formerly used for capital purchases must now be used for the debt payment on the alternate revenue bonds that were issued to fund the construction of the new aquatic center. The other alternative is to set aside excess reserves for future major capital projects, which would require board approval.

There are currently no known contingencies that would force a major change in the District's budgeting, spending, or taxation.

## **Requests for Information**

This financial report is designed to provide a general overview of the Champaign Park District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Director of Finance, Champaign Park District, 706 Kenwood Road, Champaign IL 61821.

CHAMPAIGN PARK DISTRICT  
Notes to Financial Statements  
April 30, 2014

**1. Summary of Significant Accounting Policies**

The financial statements of the Champaign Park District (the District) are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The Government Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments. GAAP includes all relevant GASB pronouncements plus other sources of accounting and financial reporting guidance noted in GASB Statement 55, *The Hierarchy of GAAP for State and Local Governments*.

For the year ended April 30, 2014, the District implemented GASB Statement Number 65, *Items Previously Reported as Assets and Liabilities*. This standard had no quantitative impact on the financial reporting for the District for the year ended April 30, 2014.

a. Financial Reporting Entity

The District was organized in November 1911 and was established as a separate unit of local government in 1955. The District is a municipal corporation which operates under the statutes of the State of Illinois. It is governed by a five member Board of Commissioners elected to six-year terms in biennial public elections. The District is composed of over 90 parks and facilities designed to help meet the leisure needs of the people in the Champaign, Illinois area.

The definition of what constitutes the entity of the District is based on the guidelines set forth in GASB Statement Number 14, as amended by GASB Statement 61. The primary government of the District consists of the funds presented herein as governmental funds, a debt service fund, capital project funds, a permanent fund, and an agency fund.

According to GASB Statement Number 14, as amended by Statement Number 61, a legally separate organization should be included as a component unit of the primary government if the primary government is financially accountable for the legally separate organization. Financial accountability is determined as follows:

1. The organization is fiscally dependent on the primary government and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government, or

2. The primary government appoints a voting majority of the organization's governing body, and:
  - It is able to impose its will on the organization, or
  - There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government

As required by accounting principles generally accepted in the United States of America, these financial statements present the financial reporting entity of the District, including the Champaign Parks Foundation (the Foundation), a discretely presented component unit. The Foundation is a discretely presented component unit because the resources received and held by the Foundation are entirely for the direct benefit of the District, the District has the ability to access those resources, and those resources are significant to the District.

The assets, liabilities, net assets, revenue, and expenses of the Foundation are included in the basic financial statements presented in Exhibits A and C. There are no other entities for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be materially misstated or incomplete. The Foundation issues publicly available financial statements, which may be obtained by contacting the Champaign Parks Foundation, 706 Kenwood Road, Champaign, Illinois 61821-4112.

Related organizations for which the Commissioners appoint a voting majority of the governing body, but for which the District is not financially accountable, are not included in the reporting entity.

Jointly governed organizations are those for which the District does not have an on-going financial interest or responsibility. Jointly governed organizations are not included in the reporting entity.

b. Basic Financial Statements

*Government-Wide Financial Statements*

The Statement of Net Position and Statement of Activities display information about the District as a whole. They include all funds of the District and the discretely presented component unit, except the District's Agency Fund. The Statement of Net Position and the Statement of Activities include the governmental activities and the discretely presented component unit. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues.

Internal balances and activities within the District's funds are eliminated in the government-wide financial statements. Activities between the District's primary government and the discretely presented component unit are not eliminated.

The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting (as described in Note 1.c).

### *Fund Financial Statements*

Fund financial statements of the District are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitutes its assets, liabilities, fund equity, revenue, and expenditures/expenses. The District's funds are organized into two major categories: governmental and fiduciary funds. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

1. Total assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenue, or expenditures/expenses of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type
2. Total assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenue, or expenditures/expenses of the individual governmental fund are at least 5 percent of the corresponding total for all governmental funds combined

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting (as described in 1.c).

The fiduciary fund financial statement is reported on the accrual basis of accounting (as described in Note 1.c).

The fund types of the District are described below:

### *Governmental Funds*

The focus of the governmental funds' measurement (in the fund financial statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

**General Fund** - The General Fund is the primary operating fund of the District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of the specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The reporting entity of the District includes the following special revenue funds:

➤ Major Special Revenue Funds

Recreation Fund - Property taxes levied for this fund, along with fees from participants, provide the funds necessary to pay for recreational programs.

Museum Fund - Property taxes levied for this fund along with fees from patrons provide the funds to acquire, maintain, improve, and operate the museum facilities and programs including activities related to the cultural arts, nature, zoos, and arts and crafts.

Special Recreation Fund - Property taxes levied for this fund along with fees from participants provide the funds necessary to pay for recreational activities for the handicapped, which is a cooperative program with the Urbana Park District.

➤ Non-Major Special Revenue Funds

Liability Insurance Fund - Property taxes levied for this fund provide the funds necessary to pay the premiums for District insurance and a portion of the administrative and risk management services needed to secure and implement these insurance coverages. Insurance includes, but is not limited to, general liability, umbrella liability, fire and extended coverage, burglary, theft, employee and commissioner bonds, worker's compensation, unemployment compensation, and insurance on District vehicles and equipment. Premiums on health and life insurance are not paid from this fund.

Illinois Municipal Retirement Fund (IMRF) Fund - State law requires all permanent employees of the District to participate in a mandatory retirement plan through payroll deduction, and the District as an employer also makes contributions to the State plan. The property taxes levied for this fund are used to pay the employer contribution to the plan.

Audit Fund - Property taxes levied for this fund are used to pay the expense of the state-mandated independent annual audit of the District's financial statements.

Social Security Fund - District employees make mandatory contributions to the Social Security System as a payroll withholding, and the District as employer makes matching contributions. Property taxes levied for this fund are used to pay the employer contributions.

Police Protection Fund - Property taxes levied for this fund are used to pay for the contracted police services provided by the City of Champaign.

Special Donation Fund - Is funded by donations from individuals and organizations, which are restricted as to use as specified by the donor.

Debt Service Funds - Debt Service Funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest. The reporting entity includes one debt service fund, which is the Bond Amortization/Debt Service Fund. This is a non-major governmental fund.

Capital Projects Funds - Capital Projects Funds are used to account for and report financials resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The reporting entity includes the following capital projects funds:

➤ Major Capital Projects Fund

Bond Proceeds Fund - This fund accounts for the money generated by the sale of general obligation bonds and the related disbursement of the funds for the repayment of long-term debt and capital projects as listed in the bond ordinance.

➤ Non-Major Capital Projects Funds

Paving and Lighting Fund - Property taxes levied for this fund are used to pay for the construction, maintenance, and lighting of streets, roadways, bike paths, sidewalks, and parking lots within the parks and facilities maintained by the District.

Capital Improvements and Repair Fund - Intergovernmental revenues, special receipts and transfers from other District funds are used to pay for capital improvement and repair projects not funded by other District funds.

Land Acquisition Fund - Intergovernmental revenues, special receipts and transfers from other District funds are used to pay for land purchases not funded by other District funds.

Permanent Funds - Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used to support the District's programs. The District has one permanent fund, the Working Cash Fund, which is a non-major fund.

### *Fiduciary Funds*

Fiduciary funds are used to report assets held by the District in a trustee or agency capacity for others and therefore cannot be used to support the District's own programs. The District has one fiduciary fund, the Activity and Affiliates Fund, which provides administration for the funds from recreation centers, senior citizen programs, adopt-a-park groups, and District co-sponsored affiliate programs.

#### c. Basis of Accounting

##### *Accrual*

Both governmental activities in the government-wide financial statements and the fiduciary fund financial statement are presented on the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when incurred. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

##### *Modified Accrual*

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenue is recognized when it becomes both measurable and available. Revenue is considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers receipts within 60 days of year-end to be available. Expenditures generally are recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when payment is due.

Property taxes, corporate personal property replacement tax, and grants are considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measured and available only when cash is received by the District.

#### d. Cash and Cash Equivalents

Cash and Cash Equivalents includes deposits at financial institutions, non-negotiable certificates of deposit, and funds held in money market mutual funds or similar pooled investments such as the Illinois Park District Liquid Assets Fund, the Illinois Funds, and the Illinois Metropolitan Investment Fund.

e. Investments

Under Illinois law (30 ILCS 235/2), the District may invest excess funds in interest bearing deposits at federally insured banks and savings and loans, commercial paper, short term discount obligations of the Federal National Mortgage Association, and securities issued by the U.S. Treasury or other federal agencies. At April 30, 2014, the District's primary government has no investments.

f. Receivables

Receivables are reported at the estimated net realizable amounts from third-party payers and others for services rendered. Receivables are stated at the amount management expects to collect on outstanding balances.

g. Interfund Balances

Short-term receivables and payables between funds are reported as due from and due to other funds, respectively. Non-current amounts are reported as advances to/from other funds. In governmental funds, advances to other funds as well as other long-term receivables are offset by non-spendable fund balance because they do not represent expendable, available financial resources.

h. Prepaid Expenditures/Expenses

Prepaid expenditures/expenses such as for insurance or service contracts are deferred and expended/expensed over the term when the services are received.

i. Capital Assets

Capital assets purchased for use in governmental activities are recorded as expenditures in governmental funds at the time of purchase. Governmental capital assets are reported in the government-wide financial statements offset by accumulated depreciation. Capital assets are valued at actual or estimated historical cost while donated capital assets are valued at their fair market value on the date donated. Equipment valued at or above \$10,000, buildings and improvements valued at or above \$20,000, land improvements and infrastructure valued at or above \$20,000, and land of any value are capitalized. Assets that appreciate in value are capitalized if valued at more than \$10,000. Depreciation is calculated on all assets other than land and assets that appreciate in value using the straight-line method, mid-month convention with the following estimated useful lives:

	<u>Years</u>
Building Improvements	15
New Construction	40
Land Improvements	15
Computers and Office Equipment	5
Infrastructure:	
Roads and Paved Surfaces	15
Bridges	50
Furniture	7
Other Equipment	5
Major Appliances	7
Park and Recreation Features	12
Playground Equipment	12
Vehicles	5

j. Deferred Outflows/Inflows of Resources

The financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has only one item that qualifies for reporting in this category as of April 30, 2014. The item, deferred charge on refunding, is reported in the Statement of Net Position. The amount represents the excess of cash paid to the refunded bond escrow agent over the amount of refunded principal payments. The amount is deferred and recognized as an outflow of resources (expense) over the shorter of the remaining life of the refunded debt or the life of the refunding debt.

The financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item that qualifies for reporting in this category at April 30, 2014, which arises only under the modified accrual basis of accounting. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenue from property taxes. This amount is deferred and recognized as an inflow of resources (revenue) in the period that the property taxes become available.

k. Restricted Net Position

Assets that are not available to finance general operations of the District are reported as restricted on the statement of net position. The District's policy is to apply restricted resources first when an expense is incurred for a purpose for which restricted and unrestricted net position is available.

1. Fund Balance

Fund balances are classified as follows:

**Non-Spendable** – Amounts that cannot be spent either because they are not in a spendable form or because they are legally or contractually required to be maintained intact

**Restricted** – Amounts that can be spent only for specific purposes because of the District Charter, state or federal laws, or externally imposed conditions by grantors or creditors

**Committed** – Amounts that can be used only for specific purposes determined by a formal resolution of the District Board of Commissioners

**Assigned** – Amounts that are constrained by the Board of Commissioners' intent to be used for specific purposes but are neither restricted nor committed

Intent is expressed by (a) the Board of Commissioners itself or (b) a body or official to which the Board of Commissioners has delegated the authority to assign amounts to be used for specific purposes. The District's highest level of decision-making authority is the Board of Commissioners, which is authorized to assign amounts to a specific purpose through its appropriations power.

**Unassigned** – All amounts not included in other spendable classifications

When an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Commissioners has provided otherwise in its commitment or assignment actions.

m. Program Revenues

Program Revenues on the statement of activities include the following:

*Governmental Activities*

Charges for Services	Fees paid by the public for the use of District facilities, District Programs, and miscellaneous food and beverage vending
Operating Grants and Contributions	Funding used to support education programs
Capital Grants and Contributions	Funding used to construct facilities and develop properties owned by the District

n. Compensated Absences

It is the District's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the District does not have a policy to pay sick leave amounts when employees separate from service with the District. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

o. In-Kind Contributions

Contributions of facilities and services are recognized by the District if the benefit received (a) creates or enhances non-financial assets or (b) requires specialized skills, provided by individuals possessing those skills and would typically need to be purchased by the District if not provided by donation.

The District has various agreements with local media companies that provide publicity for the District's events in return for recognition at the District's events and in District publications. The District does not record in-kind contribution revenue or expense related to these agreements.

p. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

## 2. Reconciliation of Fund Statements to Government-Wide Statements

A reconciliation is provided with the balance sheet - governmental funds (Exhibit D-1) to explain the differences between total fund balances in the balance sheet - governmental funds and net position for governmental activities on the government-wide statement of net position.

The major differences are due to:

- a. Grants receivable from other governments for which funds were received subsequent to 60 days after fiscal year end
- b. Property taxes receivable and an equivalent unavailable revenue for 50 percent of the 2013 tax levy, which will be received and recorded as revenue in the next fiscal year
- c. The value of capital assets, which are not reported in governmental funds
- d. Accrued interest on debt, which will be paid during the second half of the next fiscal year
- e. The value of long term liabilities, including premiums on bond issues, which are not reported in governmental funds
- f. Unamortized deferred charge on refunding

A reconciliation is provided with the statement of revenues, expenditures and changes in fund balances - governmental funds (Exhibit E-1) to explain the difference between the change in fund balances in the governmental funds and the change in net position for governmental activities on the government-wide statement of activities.

The major differences are due to:

- a. The change in accrued grant revenue does not impact governmental fund revenue, while it impacts revenue on the statement of activities.
- b. Capital outlay expenditures are not reported in the statement of activities, while depreciation expense and gains/losses on disposal of capital assets are not reported in governmental funds.
- c. Bond proceeds are not revenue and bond payments (including bond refunding payments) are not expenses on the Statement of Activities and the change in accrued interest on bonds does not impact governmental fund expenditure.
- d. The change in accrued compensated absences is not a governmental fund expenditure, while it is an expense on the statement of activities.

### **3. Budgets and Budgetary Basis of Accounting**

#### **a. Budgetary Process**

A proposed budget and appropriations ordinance is developed and made available for public hearing at least 30 days prior to final approval. Upon approval, the Board of Commissioners of the District legally enacts an annual operating budget through passage of an ordinance. The appropriations ordinance is prepared by fund, expenditure object (i.e. salary and wages), and expenditure sub-object (i.e. salary and wages – full time personnel).

#### **b. Legal Level of Budgetary Control**

The budget is prepared by fund, department, program activity, object, and sub-object. The District's management may make transfers of budgeted amounts up to and including the department level. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the fund level. The budgetary expenditure comparisons in the basic financial statements are presented at the fund level with summarizations at the object level (i.e., salary and wages, fringe benefits, commodities, and contractual services). The IMRF Fund exceeded its working budget expenditures by \$11,031 and the Activity and Affiliates Fund exceeded its working and appropriated budget expenditures by \$8,361, for the year ended April 30, 2014; however, the IMRF Fund did not exceed its appropriated budget.

#### **c. Amendments to the Budget**

Throughout the year, the Board can make amendments within each fund, not to exceed an aggregate of 10 percent of the total appropriated amount of that fund. Likewise, after the first six months of the fiscal year have elapsed, the Board may, by two-thirds vote, transfer from any appropriation item, its anticipated unexpended funds to any other item of appropriation. The budgeted financial statements represented in this report reflect the final budget authorization. All budget appropriations including project budgets lapse at the end of each fiscal year.

#### **d. Budgetary Basis of Accounting**

Formal budgetary accounting is employed as a management control for all funds of the District, and legal budgets are adopted for the general fund, special revenue funds, capital projects funds, debt service funds, and trust and agency funds. Budgets are adopted on a modified cash basis, which is a comprehensive basis of accounting other than GAAP.

#### **e. Encumbrances**

Encumbrance accounting is not used by the District.

#### **4. Reconciliation of Budgetary to GAAP Basis**

The budgetary comparison statements are prepared on the modified cash basis, which is a comprehensive basis of accounting other than GAAP. Each budgetary statement has a reconciliation at the bottom of the statement showing the items needed to convert from the budgetary to the GAAP basis. The reconciling items include property tax conversions, accrued salaries and wages payable, and accrued interest expense.

#### **5. Deposits and Investments**

##### *Cash – Restricted*

At April 30, 2014, the District’s governmental activities hold \$233,001 of cash and cash equivalents restricted for capital projects.

##### *Custodial Credit Risk – Bank Deposits*

Custodial credit risk is the risk that in the event of a bank failure, the District’s deposits may not be returned to it. The District’s investment policy addresses custodial credit risk by requiring that all deposits in excess of federal depository insurance are to be collateralized by a pledge of securities from the depository bank at 110 percent of the uninsured amount. At April 30, 2014, \$102,331 of the District’s bank deposits of \$3,693,168, which reconciled to a book balance of \$3,540,286, was exposed to custodial credit risk. The \$102,331 balance exposed to custodial credit risk was collateralized by securities pledged by Central Illinois Bank held in the District’s name. The pledged securities had a market value of \$480,695.

##### *Credit Risk and Interest Rate Risk – External Investment Pools*

Credit risk is the risk that the issuer of a bond or note security will not repay the principal or pay the interest due on the debt. Interest rate risk is the risk that a change in the market rate of interest for a category of debt securities will negatively impact the market value of a debt security.

The credit risk of investments is addressed by the District’s investment policy by limiting investments to: 1) debt issued by the U.S. Government and its direct agencies, 2) short-term obligations of U.S. corporations with assets exceeding \$500,000,000, credit ratings within the three highest levels of two standard rating services, and maturities no later than 180 days from purchase, and 3) money market mutual funds registered under the Investment Company Act of 1940.

Interest rate risk is not directly addressed by the District’s investment policy other than the policy’s general guidelines to “remain sufficiently liquid” and “achieve market yields”.

At April 30, 2014, the District held a total \$4,796,362 in the Illinois Funds Money Market Fund, which reconciled to a book value of \$4,914,114. The fair value of the District’s position in this fund is equal to the value of the District’s fund shares. The

portfolio is regulated by oversight of the Treasurer of the State of Illinois and private rating agencies. The portfolio has AAAM ratings from Standard and Poor's. The assets of the fund are mainly invested in securities issued by the United States government or agencies related to the United States. Assets of the fund not invested in United States government securities are fully collateralized by pledged securities. The time to maturity of the investments in this external investment pool averages less than one year.

At April 30, 2014, the District held \$1,392,944 in the Illinois Park District Liquid Asset Fund. The fair value of the District's position in the Illinois Park District Liquid Asset Fund is equal to the value of the District's fund shares. The Illinois Park District Liquid Asset Fund is regulated by private rating agencies. The fund has AAAM rating from Standard and Poor's. The assets of this fund are mainly invested in securities issued by the United States government or agencies related to the United States. Generally, assets not invested in United States government securities are fully collateralized by pledged securities. The time to maturity of the investments in this external investment pool averages less than one year.

At April 30, 2014, the District held \$513,197 in the Illinois Metropolitan Investment Fund (IMET) 1-3 Year Fund and \$759,505 in the IMET Convenience Fund. These funds are regulated by private rating agencies. The IMET 1-3 Year Fund has a floating net asset value based on the value of the portfolio's securities. The fund has Aaa/MR1 rating from Moody's Investors Service. The assets of this fund are invested exclusively in securities issued by or guaranteed by the United States Treasury. The time to maturity of the investments in this external investment pool averages one to three years. The fair value of the District's position in the IMET Convenience Fund is equal to the value of the District's fund shares. The IMET Convenience Fund is not rated by the nationally recognized statistical rating organizations. The assets of the IMET Convenience Fund are invested in fully collateralized certificates of deposit. Generally, assets not invested in certificates of deposit are fully collateralized by pledged securities. The time to maturity of the investments in this external investment pool averages less than one year.

## **6. Property Tax Cycle**

### **a. Assessments**

Property is assessed by elected township assessors at one-third the market value as of January 1 each year. This is the date, called the lien date, on which property taxes "attach" to the property. The township assessors' books are turned into the County Supervisor of Assessments by April 15. The Board of Review, a three-member panel appointed by the County Board, takes action on assessment complaints and applies individual township multipliers to those townships, which are not assessed at one-third. This process equalizes the average ratio of assessments to market value among townships. The Illinois Department of Revenue analyzes the work of the Board of Review and may assign a countywide multiplier to bring the entire County's ratio into line with other counties throughout the state.

b. Taxpayer Appeals

Taxpayers may file a complaint with the Board of Review if they believe assessments are too high and may make further appeal to the state Property Tax Appeals Board. However, tax levies are determined by local governments not by assessors.

c. Property Tax Levies

Fifty percent of the calendar 2012 levy passed in November 2012 and 50 percent of the calendar 2013 levy passed in November 2013, less allowances, related to fiscal year 2014. Both levies were adopted within the Illinois statutory deadline (the third Tuesday in December). Property tax levies are reported as receivables, net of an allowance for uncollectible amounts, in the year in which they are adopted. Property tax distributions received within 60 days of the end of the fiscal year are recognized in that fiscal year as revenue in the governmental funds. The balance is unavailable revenue to the next fiscal year for the governmental funds and eliminated for the governmental activities.

Fiscal year 2014 property tax revenue on the statement of activities consists of 50 percent of the calendar 2012 levy and fifty percent of the calendar 2013 levy, less allowances, however, for fiscal year 2014 the property tax revenue on the statement of activities (on the accrual basis) and the property tax revenue on the statement of revenue, expenditures, and changes in fund balances (on the modified accrual basis) have been left as equal as actual revenue recognition differences are immaterial.

d. Tax Bills

Illinois statutes require the payment of property taxes in two installments due June 1 and September 1 and require that tax bills be mailed 30 days prior to the first installment. Property tax bills mailed in 2014 were based on equalized assessed value as of January 1, 2013 and on tax levies set in November 2013.

e. Tax Distributions

The County Treasurer is also the County Collector and is in charge of collecting and distributing property taxes. The Collector generally distributes taxes to the taxing bodies shortly after taxes are paid. The County may not keep tax receipts on behalf of other units of local government beyond thirty days. In 2013, all property taxes were distributed by November 2013. Interest earned on taxes before distribution goes to the local governments.

**7. Property Taxes Receivable**

Property taxes receivable for the governmental funds consists of property taxes levied in 2013, for which a legal claim exists in 2014. The revenue associated with the 2013 levy is recognized in the governmental funds if received within the 60 day period following the fiscal year end. The property taxes received beyond the 60 day period are deferred until the fiscal year ending April 30, 2015. A summary of property taxes receivable by fund type at April 30, 2014 is shown below:

Fund Type	Property Taxes Levied	Property Taxes Receivable	Unavailable Revenue
General	\$ 5,261,513	\$ 5,218,735	\$ 2,454,275
Recreation	1,811,981	1,797,249	845,359
Museum	1,215,005	1,205,126	566,711
Special Recreation	601,488	596,598	280,708
Non-Major			
Special Revenue	1,081,175	1,072,384	504,035
Debt Service	1,449,585	1,437,799	676,169
Capital Projects	75,186	74,575	35,310
Total	<u>\$ 11,495,933</u>	<u>\$ 11,402,466</u>	<u>\$ 5,362,567</u>

Based on past collection experience, the District has applied an allowance for doubtful collections against the property tax receivable of \$93,467 at April 30, 2014.

**8. Unearned Revenue**

Unearned revenue for governmental activities on the statement of net position and for governmental funds on the balance sheet – governmental funds consists of the following at April 30, 2014:

Unearned Program Fees	\$ 339,518
Unearned Grant Revenue	42,600
Total	<u>\$ 382,118</u>

## 9. Capital Assets

The following is a summary of the changes in capital assets of the governmental activities for the fiscal year ended April 30, 2014:

Capital Assets	April 30, 2013	Additions	Deductions	April 30, 2014
Being Depreciated:				
Buildings and Improvements	\$ 41,224,007	\$ 6,686,744	\$ (74,156)	\$ 47,836,595
Equipment	4,251,369	791,385	(78,927)	4,963,827
Not Being Depreciated:				
Land	7,840,578	-	-	7,840,578
Total	\$ 53,315,954	\$ 7,478,129	\$ (153,083)	\$ 60,641,000
Accumulated Depreciation:				
Infrastructure	\$ 7,297,082	\$ 765,292	\$ (9,999)	\$ 8,052,375
Building Improvements	7,291,951	-	-	7,291,951
Land Improvements	-	415,756	-	415,756
Equipment	3,413,578	298,468	(78,927)	3,633,119
Total	\$ 18,002,611	\$ 1,479,516	\$ (88,926)	\$ 19,393,201

Current Year depreciation expense was charged to the following function:

Culture and Recreation	\$ 1,479,516
------------------------	--------------

The additions total of \$7,478,129 includes \$103,333 of capital assets provided by the Champaign Parks Foundation.

## 10. Changes in Long-Term Debt

The following is a summary of changes in the District's long-term debt of the governmental activities for the year ended April 30, 2014:

	April 30, 2013	Issued	Retired	April 30, 2014	Due Within One Year
Alternate Revenue Bonds	\$ 5,020,000	\$ 4,670,000	\$ 4,720,000	\$ 4,970,000	\$ 385,000
Accrued Compensated Absences	208,491	4,599	-	213,090	213,090
Net Pension Obligation	59,398	-	-	59,398	-
Unamortized Bond Premiums	-	110,958	8,040	102,918	9,649
<b>Total Long-Term Debt</b>	<b>\$ 5,287,889</b>	<b>\$ 4,785,557</b>	<b>\$ 4,728,040</b>	<b>\$ 5,345,406</b>	<b>\$ 607,739</b>

The entire balance of compensated absences at April 30, 2014 has been presented as due within one year as management believes the actual amount that will be used within the next fiscal year will not be significantly lower than this amount based on past usage patterns. In fiscal year 2014 and prior years, accrued compensated absences have been liquidated by the following funds: General, Recreation, Museum, Liability Insurance, and Special Recreation. The net pension obligation will be liquidated by the Illinois Municipal Retirement Fund.

## 11. Alternate Revenue Bonds

### *Series 2005 Bonds*

On September 1, 2005, the District issued \$6,950,000 of general obligation bonds (alternative revenue source) to defray the costs associated with the District's aquatic center. The registrar and paying agent is J.P. Morgan Trust Company for this bond issue, which is known as the General Obligation Bond (Alternate Revenue Source), Series 2005. These bonds were scheduled to mature serially on December 15 of each of the calendar years 2006 to 2024 in amounts ranging from \$190,000 to \$525,000 and bearing interest ranging from 3.8 percent to 4.5 percent payable December 15 annually, but bonds maturing on and after December 15, 2015 were advance refunded on July 2, 2013.

These bonds are to be repaid from the revenue generated by the District's aquatic center, which is included in the activities of the Recreation Fund. However, the bond ordinance created an annual tax levy sufficient to repay the principal and

interest through 2024 if the revenue of the aquatic center is insufficient to repay the debt. This levy was abated for fiscal year 2014. The District is currently using funds from the annual general obligation bond issue to repay the principal and interest.

Aggregate future principal maturities and interest payments required on these bonds are as follows at April 30, 2014.

Fiscal Year Ended April 30	Principal	Interest	Total
2015	\$ 345,000	\$ 13,110	\$ 358,110

The District has pledged future revenue from the Sholem Aquatic Center as a source of funding for the repayment of these bonds. Principal and interest on the bonds are payable through 2014 and it is management’s intention to use funds from the annual general obligation bond issue to make all debt payments rather than the pledged revenue. Annual principal and interest on the bonds would require an amount less than the expected revenue from the operation of the Sholem Aquatic Center.

Principal and interest paid for fiscal year 2014 was \$454,761. The Sholem Aquatic Center’s revenue totaled \$370,012 for fiscal year 2014. The proceeds from the general obligation bond issued in fiscal year 2014 was \$1,068,000. At April 30, 2014, pledged future revenue totaled \$358,110, which was the amount of the remaining principal and interest on the bonds.

*Series 2013 Bonds*

On July 2, 2013, the District issued \$4,670,000 of general obligation bonds (alternate revenue source). The proceeds of the bond issue were used to advance refund \$4,345,000 of the Series 2005 bonds, which were scheduled to mature on and after December 15, 2015.

These bonds mature serially on December 15 of each of the calendar years 2013 to 2024 in amounts ranging from \$45,000 to \$525,000 and bear interest ranging from 2.0 percent to 3.0 percent payable June 15 and December 15 annually. Bonds maturing on and after December 15, 2022 are subject to early redemption as of December 15, 2021 at the District’s discretion. These bonds are to be repaid from the revenue generated by the District’s aquatic center, which is included in the activities of the Recreation Fund. However, the bond ordinance created an annual tax levy sufficient to repay the principal and interest through 2024 if the revenue of the aquatic center is insufficient to repay the debt. This levy was abated for fiscal year 2014. The District is currently using funds from the annual general obligation bond issue to repay the principal and interest.

Aggregate future principal maturities and interest payments required on these bonds are as follows:

Fiscal Year Ended April 30	Principal	Interest	Total
2015	\$ 40,000	\$ 126,050	\$ 166,050
2016	400,000	125,250	525,250
2017	410,000	117,250	527,250
2018	420,000	109,050	529,050
2019	435,000	100,650	535,650
2020-2024	2,395,000	299,550	2,694,550
2025	525,000	15,750	540,750
Total	<u>\$ 4,625,000</u>	<u>\$ 893,550</u>	<u>\$ 5,518,550</u>

The District has pledged future revenue from the Sholem Aquatic Center as a source of funding for the repayment of these bonds. Principal and interest on the bonds are payable through 2024 and it is management's intention to use funds from the annual general obligation bond issue to make all debt payments rather than the pledged revenue. Annual principal and interest on the bonds would require an amount greater than the expected revenue from the operation of the Sholem Aquatic Center; however, the debt service will utilize approximately 50 percent of the proceeds of the general obligation bond issued.

Principal and interest paid for fiscal year 2014 was \$102,480. The Sholem Aquatic Center's revenue totaled \$370,012 for fiscal year 2014. The proceeds from the general obligation bond issued in fiscal year 2014 was \$1,068,000. At April 30, 2014, pledged future revenues totaled \$5,518,550, which was the amount of the remaining principal and interest on the bonds.

The 2013 bond ordinance calls for a funded reserve to pay principal and interest. The bond fund reserve requires the next principal and interest payment amounts to be set aside by each December 1, but requires no specific monthly set aside amount before that date. At April 30, 2014, the required balance in this reserve was \$0 and \$0 was held in the reserve.

The advance refunding was done in order to reduce debt payments. The refunding decreased the District's total debt service payments by approximately \$144,000. The transaction resulted in an economic gain (difference between the present value of the debt service on the old and the new bonds) of approximately \$120,000.

A deposit of \$4,686,539 was placed into an irrevocable trust with an escrow agent to provide for future debt service payments on the advance refunded 2005 bonds. As a result, the bonds are considered to be defeased, and the related liability for the bonds has been removed from the District's liabilities.

The advance refunding transaction resulted in an expense of \$244,738, which equals the amount placed in escrow less the carrying amount of the defeased bonds including accrued interest to the date of redemption. This expense has been capitalized on the statement of net position as a deferred outflow of resources deferred charge on refunding.

**12. General Obligation Bond**

On December 2, 2013, the District issued \$1,068,000 of general obligation bonds (limited tax) to defray the costs associated with various capital projects and for paying the principal and interest on the District’s alternate revenue bonds. The registrar and paying agent is Busey Bank for this bond issue, which is known as the General Obligation (Limited Tax) Park Bond, Series 2013. These bonds mature November 30, 2014 and bear interest of 0.64 percent. The bond principal of \$1,068,000 and interest of \$6,797 will be paid from property taxes levied specifically for this bond repayment.

The following is a summary of changes in the District’s short-term debt of the governmental activities for the year ended April 30, 2014:

	April 30, 2013	Issued	Retired	April 30, 2014
General Obligation Bonds	<u>\$ 1,051,000</u>	<u>\$ 1,068,000</u>	<u>\$ 1,051,000</u>	<u>\$ 1,068,000</u>

**13. Legal Debt Margin**

At April 30, 2014, the estimated legal debt margin was determined as follows:

Assessed Valuation (Tax Year 2013)	<u>\$ 1,503,718,963</u>
Statutory Debt Limitation (2.875 Percent of Assessed Valuation)	\$ 43,231,920
Total General Obligation Bond Indebtedness at April 30, 2014	<u>(1,068,000)</u>
Legal Debt Margin	<u>\$ 42,163,920</u>

**14. Restricted Net Position**

At April 30, 2014, the District has restricted net position that is restricted due to enabling legislation as follows:

Tax Levy Allocations for:

IMRF Expenditures	\$	324,816
Audit Expenditures		24,651
Social Security Expenditures		435,597
Liability Insurance Expenditures		498,985
Police Protection Expenditures		44,740
Total	\$	<u>1,328,789</u>

**15. Non-Spendable, Restricted, Committed, Assigned, and Deficit Fund Balances**

a. Non-Spendable, Restricted, Committed, and Assigned

In the fund financial statements, governmental funds report non-spendable, restrictions of, commitments of, and assignments of fund balances for amounts that are not available for appropriation, are restricted by outside parties for use for a specific purpose, are committed for a specific purpose by an action of the Board of Commissioners, or are assigned by the Board of Commissioners' intent to be used for specific purposes but are neither restricted nor committed, respectively. Intent is expressed by (a) the Board of Commissioners itself or (b) a body or official to which the Board of Commissioners has delegated the authority to assign amounts to be used for specific purposes. As of April 30, 2014, such fund balances are composed of the following:

	General Fund	Other Major Governmental Funds	Non-Major Governmental Funds	Total Governmental Funds
<b>Non-Spendable:</b>				
Prepaid Items	\$ 2,304	\$ 18,173	\$ -	\$ 20,477
Permanent Fund	-	-	250,000	250,000
	<u>2,304</u>	<u>18,173</u>	<u>250,000</u>	<u>270,477</u>
<b>Restricted:</b>				
Tax Levy				
Expenditures	-	-	1,328,789	1,328,789
Capital Projects	-	233,001	592,788	825,789
Debt Service	-	-	766,124	766,124
Scholarships	-	-	66,313	66,313
	<u>-</u>	<u>233,001</u>	<u>2,754,014</u>	<u>2,987,015</u>
<b>Committed:</b>				
Land Acquisition	-	-	200,115	200,115
<b>Assigned:</b>				
Culture and				
Recreation	-	3,480,883	-	3,480,883
Special Recreation	-	2,105,898	-	2,105,898
	<u>-</u>	<u>5,586,781</u>	<u>-</u>	<u>5,586,781</u>
Total	<u>\$ 2,304</u>	<u>\$ 5,837,955</u>	<u>\$ 3,204,129</u>	<u>\$ 9,044,388</u>

b. Deficit Fund Equity

As of April 30, 2014, the Bond Proceeds Fund had a deficit fund balance of \$904,241. This deficit will be eliminated in fiscal year 2015 by the transfer of funds from the Bond Amortization/Debt Service Fund as part of the repayment of the short-term bond debt.

**16. Interfund Receivables, Payables, and Transfers**

There are no interfund receivables or payables as of April 30, 2014. Interfund transfers made during the year ended April 30, 2014 are summarized below:

	Transfers In	Transfers Out
Bond Proceeds Fund	\$ 1,060,660	\$ -
Land Acquisition Fund	100,000	-
Bond Amortization/Debt Service Fund	-	1,060,660
General Fund	-	100,000
Total	<u>\$ 1,160,660</u>	<u>\$ 1,160,660</u>

The transfer from the Bond Amortization/Debt Service Fund into the Bond Proceeds Fund was related to the redemption payment and related interest of the 2012 G. O. bond. The transfer from the General Fund to the Land Acquisition Fund was to support that fund's future capital projects as deemed appropriate by the Board of Commissioners.

**17. Defined Benefit Pension Plan**

*Plan Description* - The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at [www.imrf.org](http://www.imrf.org).

*Funding Policy* - As set by statute, the District's Regular Plan members are required to contribute 4.50 percent of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer annual required contribution rate for calendar year 2013 was 11.12 percent. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

*Annual Pension Cost* - For fiscal year 2014, the District's annual pension cost was \$351,766 for the Regular Plan. The District's actual contribution for fiscal year 2014 was \$351,766. Through April 30, 2014, the District's net pension obligation was \$59,398. The net pension obligation is recorded as an accrued pension liability in the non-current liabilities on the government-wide statement of net position as of April 30, 2014.

**Three-Year Trend Information for the Regular Plan**

Fiscal Year Ending	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
4/30/14	\$ 351,766	100%	\$ 59,398
4/30/13	322,367	100%	59,398
4/30/12	324,176	97%	59,398

The net pension liability for the District is as follows:

Annual Required Contribution (ARC)	\$ 347,311
Interest on the NPO	2,970
Adjustment to the ARC	1,485
Annual Pension Cost	<u>351,766</u>
Actual Contribution	<u>351,766</u>
Increase to the NPO	-
Beginning of Year NPO	<u>59,398</u>
End of Year NPO	<u><u>\$ 59,398</u></u>

The required contribution for 2013 was determined as part of the December 31, 2011, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions at December 31, 2011, included (a) 7.5 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4.0 percent a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4 percent to 10.0 percent per year depending on age and service, attributable to seniority/merit, and (d) post retirement benefit increases of 3.0 percent annually. The actuarial value of the District's Regular Plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20.0 percent corridor between the actuarial and market value of assets. The District's Regular Plan's unfunded actuarial accrued liability at December 31, 2011 is being amortized as a level percentage of projected payroll on an open 30 year basis.

*Funded Status and Funding Progress* - As of December 31, 2013, the most recent actuarial valuation date, the Regular Plan was 90.22 percent funded. The actuarial accrued liability for benefits was \$8,785,937 and the actuarial value of assets was \$7,926,789, resulting in an underfunded actuarial accrued liability (UAAL) of \$859,148. The covered payroll for calendar year 2013 (annual payroll of active employees covered by the Plan) was \$3,152,212 and the ratio of UAAL to the covered payroll was 27 percent.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The District provides no other postemployment benefits to employees.

## **18. Joint Risk Management Pool**

The District is exposed to various risks related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and net income losses. Since May 1, 1993, the District has been a member of the Park District Risk Management Agency (PDRMA) Property/Casualty Program. PDRMA is a public entity risk pool consisting of park districts, forest preserve districts, special recreation associations and certain nonprofit organizations serving the needs of public entities formed in accordance with the terms of an intergovernmental cooperative agreement among its members.

The following table is a summary of the property/casualty coverage in effect for the period January 1, 2013 through January 1, 2014.

Coverage	Member Deductible	PDRMA Self-Insured Retention	Limits	Insurance Company	Policy Number
<b>1. Property:</b>					
All Losses per Occurrence	\$ 1,000	\$ 1,000,000	\$1,000,000,000/all members	PDRMA Reinsurers: Various Reinsurers through the Public Entity Property Reinsurance Program (PEPIP)	P070113

<b>7. Volunteer Medical Accident</b>	None	\$ 5,000	\$5,000 medical expense and AD&D excess of any other collectible insurance	Self-insured	
<b>8. Underground Storage Tank Liability</b>	None	N/A	\$10,000, follows Illinois Leaking Underground Tank Fund	Self-insured	
<b>9. Unemployment Compensation</b>	N/A	N/A	Statutory	Member-funded	

Losses exceeding the per-occurrence, self-insured, and reinsurance limit would be the responsibility of the District. During the year ended April 30, 2014, there were no significant reductions in coverage. Also, there have been no settlement amounts that have exceeded insurance coverage in the past three years.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body. The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by PDRMA.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

The following represents a summary of PDRMA's balance sheet at December 31, 2013 and the statement of revenues and expenses for the period ending December 31, 2013. The District's portion of the overall equity of the pool is 0.777 percent or \$313,100.

Assets	<u><u>\$ 60,509,769</u></u>
Liabilities	<u><u>\$ 20,225,423</u></u>
Member Balances	<u><u>\$ 40,284,346</u></u>
Revenues	<u><u>\$ 20,737,466</u></u>
Expenditures	<u><u>\$ 17,177,774</u></u>

Since 97 percent of PDRMA's liabilities are reserves for losses and loss adjustment expenses, which are based on an actuarial estimate of the ultimate losses incurred, the Member Balances are adjusted annually as more recent loss information becomes available.

## **19. Contingent Liabilities**

The District participates in a number of state and federally assisted programs. Under the terms of the programs, periodic audits are required, and certain costs may be questioned as not being appropriate expenditures under the terms of these programs. Such audits could lead to reimbursements to grantor agencies. Based on prior experience, the District believes examinations would not result in any material disallowed costs for grant revenue recorded in these financial statements or from prior years.

In the normal course of events, the District makes various commitments and incurs certain contingent liabilities that are not reflected in the accompanying financial statements. Additionally, various legal proceedings are pending against the District. Management believes that the aggregate liability, if any, resulting from these will not be material after insurance coverage.

## **20. Subsequent Events and Future Commitments**

Through the date of the Independent Auditor's Report, the District has various construction projects in progress or pending with commitments totaling approximately \$1,841,000. These commitments are expected to be paid in fiscal year 2015 using funds from the General Fund (\$119,000), Recreation Fund (\$448,000), Bond Proceeds Fund (\$226,000), Capital Improvements and Repair Fund (\$423,000), Paving and Lighting Fund (\$292,000), and the Special Recreation Fund (\$333,000).

The District has a contract for the purchase of electricity through June 2016. The contract contains set rates for kilowatt hours and calls for base consumption quantities. Total payments under the contract during fiscal year 2014 totaled approximately \$167,000.

## **21. Discretely Presented Component Unit**

The following notes are provided for the District's component unit, Champaign Parks Foundation:

### **A. Nature of Foundation**

Champaign Parks Foundation (the Foundation) is a nonprofit corporation organized under the laws of the State of Illinois to develop philanthropic support for the Champaign Park District (the District). The Foundation is considered a component unit of the District under the accounting standards followed by the District; however, the Foundation is a separate legal entity. The Foundation's only program relates to the support of the operational and capital needs of the District that lack adequate funding through the District's available resources.

The Foundation's major sources of revenue and support are contributions from donors, grants, and interest income.

## B. Summary of Significant Accounting Policies

Following is a summary of the significant accounting policies of the Foundation:

- a. The Foundation's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Net assets of the Foundation and changes therein are classified and reported as follows:
  - *Unrestricted Net Assets* – Net assets that are not subject to donor-imposed stipulations
  - *Temporarily Restricted Net Assets* – Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Board of Directors and/or passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.
  - *Permanently Restricted Net Assets* – Net assets subject to donor-imposed stipulations that must be maintained permanently by the Foundation. Generally, the donors of these assets permit the Foundation to use all or part of the income earned for general or specific purposes.
- b. Cash and cash equivalents consist of deposits in checking accounts, money market accounts, and certificates of deposit with maturities less than three months. These certificates of deposit are carried at cost.
- c. Contributions of facilities are capitalized if the appraised value of the property exceeds the Foundation's capitalization threshold of \$5,000. Contributed services are reported as contribution revenue and as assets or expenses only if the services create or enhance a non-financial asset (for example, property and equipment) or:
  - Would typically need to be purchased by the Foundation if the services had not been provided by contribution
  - Require specialized skills
  - Are provided by individuals with those skills
- d. Promises to give consist of unconditional promises to give to the Foundation. The carrying amount of promises to give may be reduced by a valuation allowance based on management's assessment of the collectability of specific pledge balances. Management has provided no allowance for uncollectible promises to give based upon management's assessment of the collectability of the existing specific promises to give.

- e. Grants receivable results from grants for which support has been recognized but funds from the grantor have not been received before April 30, 2014. Grants receivable are stated at the amount management expects to collect from the balances outstanding at year-end. Management has provided no allowance for uncollectible grants receivable based upon management's assessment of the collectability of the existing specific grants receivable.
- f. The Foundation is exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.
- g. The costs of providing the various programs and other activities have been summarized on a functional basis in the statement of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited.
- h. As of April 30, 2014, the federal and Illinois tax filings that fall within the applicable statutes of limitation remain open for review by tax authorities.
- i. The Foundation's management has reviewed subsequent events from April 30, 2014 to August 11, 2014, which is the date the financial statements were available to be issued.
- j. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

**C. Cash and Cash Equivalents**

Cash and cash equivalents consist of the following at April 30:

	<u>2014</u>	<u>2013</u>
Cash	\$ 163,085	\$ 41,341
Money Market	85,906	85,785
Certificates of Deposit	355,833	457,773
Total	<u>\$ 604,824</u>	<u>\$ 584,899</u>

**D. Temporarily Restricted Net Assets**

Temporarily restricted net assets are available for the following purposes at April 30:

	<u>2014</u>	<u>2013</u>
Virginia Theatre Restoration	\$ 118,682	\$ 105,309
West Side Park Sculptures	57,867	62,136
Memorial Tree	29,152	28,165
CUSR	26,344	20,064
William Wagner Trust	18,356	18,356
Carragher Trust - Virginia Theatre Restoration	17,564	12,616
West Side Park	16,853	16,853
Prairie Farm	15,652	13,345
Amdocs Project	14,445	14,445
Meditation Gardens	11,481	11,481
Leonhard Recreation Center	10,732	-
Scholarships	5,576	11,961
Aquatic Center	-	50,187
Leonhard Memorial	-	22,762
Various - Under \$10,000	51,633	43,943

**E. Permanently Restricted Net Assets**

Permanently restricted net assets consist of the H.E. Moore Trust of \$68,119 as of April 30, 2014 and 2013.

## **F. Endowment**

The Foundation is following the Uniform Prudent Management of Institutional Funds Act adopted by the State of Illinois. As a result, the Foundation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets should be classified as temporarily restricted net assets until those assets are appropriated for expenditure by the Foundation's Board of Directors. However, because the endowment donor has not placed restrictions on the use of the investment income or the net appreciation resulting from the donor-restricted endowment funds, and because the investment income is not a significant amount annually, all endowment income and appropriation activity is presented in the unrestricted column on the statements of activities.

The Foundation has not adopted an investment policy or spending policy related to the endowment; however, the objective of the Foundation is to maintain the purchasing power of the endowment assets. Endowment assets are invested in cash equivalents. The investment policy of the Foundation is to invest cash equivalents into high-quality instruments with high liquidity and current maturity of one year or less. Actual returns in any given year may vary. Investment income earned from the endowment is spent in accordance with the Foundation's mission.

Total endowment net assets of \$68,119 at April 30, 2014 and 2013 were permanently restricted and had no change in value during the years ended April 30, 2014 and 2013.

## **G. Related Party Transactions**

The District provided donated services to the Foundation. Donated services consist of salaries of District personnel assigned to perform management and fund raising services for the Foundation. For the years ended April 30, 2014 and 2013, the amount contributed and included as in-kind revenues totaled \$64,337 and \$50,607, respectively. An equivalent expense is included in the statement of activities. For the years ended April 30, 2014 and 2013, the Foundation also received \$44,158 and \$36,101 from the District in contributions, of which \$41,544 and \$25,000, respectively, was transferred back to the District.

For the years ended April 30, 2014 and 2013, the District's contributions of \$44,158 and \$36,101, respectively, consist of funds contributed directly to the District that have been transferred to the Foundation for maintenance of the contributions until the funds are needed by the District. The contribution amounts are 22 and 16 percent of the Foundation's total support and revenue for the years ended April 30, 2014 and 2013, respectively.

## **H. Prior Period Adjustments**

The accompanying financial statements include a prior period adjustment to correct an error made prior to the year ended April 30, 2013. The Foundation's individual fund totals were not properly aggregated by type of donor restriction (Temporarily Restricted and Permanently Restricted). The aggregate difference in Total Net Assets at April 30, 2012 is \$0. The adjustment had no impact on the change in net assets for the years ended April 30, 2014 and 2013.

**Required Supplementary Information**

CHAMPAIGN PARK DISTRICT

Schedule of Funding Progress  
(Unaudited)

Illinois Municipal Retirement Fund

Actuarial Valuation Date	Actuarial Value of Assets (a)	Actuarial Accrued Liability (AAL) - Entry Age (b)	Unfunded AAL (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll (b-a)/c
12/31/2013	\$ 7,926,789	\$ 8,785,937	\$ 859,148	90.22%	\$ 3,152,212	27.26%
12/31/2012	7,496,705	8,670,988	1,174,283	86.46%	3,052,050	38.48%
12/31/2011	7,244,206	8,689,245	1,445,039	83.37%	3,030,121	47.69%

On a market value basis, the actuarial value of assets as of December 31, 2013 was \$9,225,699. On a market basis, the funded ratio would be 105.01 percent.

The actuarial value of assets and accrued liability cover active and inactive members who have service credit with the District. They do not include amounts for retirees. The actuarial accrued liability for retirees is 100% funded.

**STATISTICAL SECTION INTRODUCTION**  
**(Unaudited)**

This part of the Champaign Park District's (the District) comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

**Financial Trend Schedules - Schedule 16 through Schedule 19**

These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.

**Revenue Capacity Schedules - Schedule 20 through Schedule 23**

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

**Debt Capacity Schedules - Schedule 24 through Schedule 28**

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

**Demographic and Economic Information Schedules - Schedule 29 and Schedule 30**

These schedules offer demographic and economic indicators to help the reader understand the *environment* within which the District's financial activities take place.

**Operating Information Schedules - Schedule 31 through Schedule 33**

These schedules contain service and infrastructure information to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

*Sources – Unless otherwise noted on the Schedules, the information in these Schedules is derived from the comprehensive annual financial reports for relevant years.*

Source: Champaign County Clerk

Note 1: State law prescribes an assessment ratio of 33% of actual value

Note 2: Fiscal Years - The annual levy covers a calendar year, but the related revenue is recognized 50% in the fiscal year in which the levy is passed and 50% the subsequent fiscal year

## Source:

City of Champaign and overlapping government records

## Notes:

- (1) Overlapping governments are those that coincide, at least in part, with the boundaries of the Champaign Park District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the taxpayers of the Champaign Park District. This estimate produces a schedule that recognizes that, when considering Champaign Park District's ability to issue and repay long-term debt, the entire debt burden borne by the taxpayers should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.
- (2) Computed by dividing Champaign Park District's assessed value by the assessed value of the overlapping governments and multiplying this rate by the overlapping governments' outstanding debt. An overlapping government unit is any that levies a tax on a citizen of the Champaign Park District. This schedule does not include revenue supported debt.

Note: The District does not have bond debt supported strictly by a pledged revenue source. The District has alternate revenue bonds outstanding since fiscal year 2006. These bonds were issued to finance the construction of the District's Aquatic Center. These are general obligations of the District, however, these bonds, and the related interest, are expected to be paid from the funds remaining from the bond issue, the revenue of the District's Aquatic Center, from proceeds of annual, short-term, general obligation bonds, or from property taxes.
